PROFESSIONAL SUMMARY

Computer Science graduate and Full Stack Developer with hands-on experience in **Java, Spring Boot, REST APIs, Hibernate/JPA, MySQL, React.js, and JavaScript**. Experienced in developing full-stack applications, designing RESTful APIs, implementing **Spring Security, JWT authentication, and role-based access control**, and testing web applications. Currently working as a **Full Stack Developer Intern at Scalabox Technologies**, contributing to CRM and billing applications, application testing, and UI design using Figma. Seeking an entry-level **Java Full Stack Developer** opportunity.

TECHNICAL SKILLS

Languages	Java, JavaScript, SQL, Python, HTML5, CSS3
Backend	Spring Boot, REST APIs, Hibernate, JPA, JDBC, Servlets, Flask
Frontend	React.js, HTML5, CSS3, JavaScript
Database	MySQL, PostgreSQL
Security	Spring Security, JWT Authentication, Role-Based Access Control (RBAC)
UI/UX & Testing	Figma, UI Design, Web Application Testing, Postman
Tools	Git, VS Code, Eclipse, pgAdmin

EXPERIENCE

Full Stack Developer Intern **2026 – Present**
Scalabox Technologies,Dharmapuri

- Contributing to the development and testing of **CRM and billing applications**, supporting application workflows and feature validation.
- Designed the **Leads Management page for the CRM application** using **Figma**, focusing on structured information hierarchy, usability, and user-friendly interface design.
- Performed **web application testing** for CRM and billing modules, identifying functional issues and validating application workflows before delivery.

Java Developer Intern **2024**
Emglitz Technologies,Salem

- Developed Core Java applications including a functional **ATM system** with JDBC-based transaction processing, account balance management, and secure PIN validation.

Python Developer Intern **2023**
Imagecon,Salem

- Developed Python-based mini-projects and automation scripts, strengthening Python programming, application development, and problem-solving skills.

PROJECTS

Full-Stack Banking System | Java Spring Boot **2025 – 2026**

- Developed a full-stack banking application using **Spring Boot and React.js** with account creation, deposits, withdrawals, fund transfers, and balance inquiry.
- Designed and tested **15+ RESTful APIs** for account management and transaction processing; validated APIs using **Postman**.
- Implemented **Spring Security, JWT authentication, and role-based access control** for Admin and Customer users.
- Integrated **MySQL with Hibernate/JPA** for persistent storage of customer records and transaction history.

Smart Stroke Risk Predictor | Healthcare ML Web App **2024 – 2025**

- Developed a machine-learning web application using **Random Forest and Logistic Regression** to predict stroke risk from clinical patient data.
- Performed data preprocessing, missing-value handling, **SMOTE-based class balancing**, and feature scaling; evaluated models using Accuracy, Precision, Recall, F1-Score, and AUC-ROC.
- Deployed the selected machine-learning model through a **Flask web application** and presented the research at **ICETS '25**.

EDUCATION

B.E. – Computer Science and Engineering **2021 – 2025**
RP Sarathy Institute of Technology *CGPA: 7.91 / 10*

CERTIFICATIONS & TRAINING

- **Full Stack Java Development – JSpiders (QSpiders):** Core Java, Advanced Java, JDBC, Servlets, OOP, HTML/CSS/JavaScript, React.js, SQL/MySQL, and REST APIs.Web App Development Workshop – Global iGate IT Training Center (2023).
- **Employability Skills Development Training Programme – Titan Leap, Naandi Foundation** (2023–2024).
